ABOUT CONFERENCE

Sustainability, a cornerstone of a thriving future, demands a holistic approach that transcends mere material progress. While scientific advancements have undeniably improved our lives, their unchecked application has often led to environmental degradation and social inequities. In India, a nation deeply rooted in spirituality, we possess an invaluable resource to guide our path towards a sustainable and peaceful world. This "Success Trio" – Women, Youth, and Spirituality – holds the key to unlocking human potential and fostering a harmonious coexistence with nature.

Empowering women is paramount. Their inherent wisdom, compassion, and nurturing spirit are crucial for building strong families and communities. Youth, with their boundless energy, innovative ideas, and technological prowess, can drive sustainable solutions and shape a better tomorrow. And spirituality, with its emphasis on inner peace, interconnectedness, and ethical living, provides the moral compass and guiding principles for a just and equitable society.

This conference aims to explore how this "Success Trio" can work in synergy to achieve "Sankalp Se Sidhi Ki Ore from Resolution to Accomplishment" – translating our aspirations into concrete actions. By integrating spiritual wisdom with the dynamism of youth and the strength of women, we can create a sustainable future where human well-being and environmental harmony coexist.

ABOUT IFTDO

IFTDO was founded in Geneva, Switzerland in 1972 in order to develop and maintain a worldwide network committed to the identification, development and transfer of knowledge, skills and technology to enhance personal growth, human performance, productivity and sustainable development. IFTDO is the most multinational, multicultural Training and Development organization in the world with a truly diverse Board of Directors leading the organization. Our members form a highly diverse network of human resource management and development organizations globally, linking HR professionals in HR societies, corporations, universities, consultancies, government organizations and enterprises across 30 countries.
